OPERATION

- When first operating your Sunter Folding Mirror after taking it out of the box, use the USB charging cable and wall adapter to begin charging your new mirror.
- To turn the mirror on, lift the front panel and fold it back around the mirror which will expose the mirror panel and touch sensor button. Lightly tap the touch sensor button located on the left of reflective mirror panel, the mirror will turn ON.
- To turn your mirror OFF, repeatedly tap the touch sensor button until all of the remaining color temperature settings have been cycled through. The mirror will turn OFF when the touch sensor button is tapped while the mirror is on the final color temperature setting

CHANGING THE COLOR TEMPERATURE

The Sunter Folding Mirror feature 3 lighting temperature settings: Warm (3,000), Indoor (4,000 K), and Natural Daylight (6,000 K).

- To adjust the lighting temperature for each individual mirror, follow these steps:
 - Turn the mirror ON by tapping the touch sensor button..
 - Once the mirror illuminates, tap the touch sensor button to change lighting temperatures. Tapping the touch sensor button after the 3rd lighting temperature setting will turn the mirror OFF

ADJUSTING THE BRIGHTNESS

In addition to the adjustable lighting temperature, the Sunter Folding Mirror also features adjustable brightness.

- To adjust brightness, first, choose 1 of the lighting color temperature settings by pressing the touch sensor one, two, or three times. Once you have found the temperature you would like, you can now adjust the brightness accordingly.
 - To decrease the brightness, once the desired lighting temperature setting has been selected, tap and hold your finger on the touch sensor button - this will gradually decrease the brightness of the mirror light. Lift your finger when the desired level of brightness appears.
 - To increase the brightness, tap and hold the touch sensor button until you notice the brightness decrease. Once you notice the brightness decrease, lift your finger off the touch sensor button and then immediately tap and hold the touch sensor button again - this step will increase the brightness of the light. Lift your finger when the desired level of brightness appears.

TURNING THE MIRROR LIGHTS OFF

The mirror lights for the Sunter Folding Mirror can be turned off by tapping the touch sensor button once when the mirror light is on the Natural Daylight (6,000K) setting - the third and final light setting

CHARGING THE FOLDING MIRROR BATTERY

- The Sunter Folding Mirror includes a 5V/5W wall adapter and a USB/USB-C charging cable
- The mirror will take about 3 hours to fully charge after all the charge in the battery is used
- Run time will vary depending on brightness levels selected; anywhere from 1-4 hours
- The mirror will still charge even if being used while it is plugged in

CLEANING YOUR MIRROR

- Unplug you mirror from power outlets, if plugged
- Use a soft damp cloth to clean your mirror
- Allow to the mirror to fully dry prior to plugging the mirror back into a wall outlet or replacing the battery
- The product has no user serviceable parts inside and the company should be contacted for service. The battery is located inside the mirror and non-replaceable.

WARNINGS

TO REDUCE THE RISK OF BURNS, ELECTROCUTION, FIRE, OR INJURY TO PERSONS:

- DO NOT PUT INTO DIRECT SUNLIGHT. Be sure mirror is not in a position where it can reflect sunlight; reflected sunlight can cause fire
- Close supervision is necessary when the lighted folding mirror is used by or near children or disabled persons
- DO NOT USE OUTDOORS
- Use the folding mirror only for its intended purpose as described in these instructions DO NOT use attachments not recommended by the manufacturer
- DO NOT operate where aerosol (spray) products are being used or where oxygen is being administered
- DO NOT submerge or operate near water
- Never operate the folding mirror if the battery, charging cord, or wall adapter are damaged
- DO NOT operate the folding mirror if it has been dropped, damaged, or dropped into water. Return the vanity mirror to a service center for examination, or repair. No repairs should be attempted by the consumer.
- Keep the charging cord and mirror away from heated surfaces
- ONLY USE THE INCLUDED WALL ADAPTER AND CHARGING CABLE TO CHARGE THE FOLDING MIRROR BATTERY
- Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FOR HOUSEHOLD USE ONLY SAVE THESE INSTRUCTIONS

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This Class B digital apparatus complies with Canadian ICES-005.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no

guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

TROUBLESHOOTING GUIDE

PROBLEM	SOLUTION
The mirror light will not turn on	Sunter Folding Mirror <ul style="list-style-type: none">• If your mirror does not illuminate, your mirror's battery may lack enough charge to power the mirror - plug the mirror into a wall outlet using the charging cable and wall adapter. Your mirror can be used while it is charging. The mirror's battery will take about 4 hours to fully charge.

If the mirror's light still will not turn on after following these steps, please contact Blackstone International's customer service.
